Delfosse's Case.

[illegible] correspondence laid before the [illegible] in regard to the selection of [illegible] Delfosse on the fisheries commission [illegible] nothing of interest except a letter to [illegible] Evarts from Delfosse of the [illegible] [illegible] attention to the fact that it [illegible] the express request of the two parties [illegible] that he accepted the office of third [illegible] but the appointment might [illegible] in entire conformity with the Washington treaty. [illegible] on Electoral Commission.

[illegible], June 18.—Butler, as an individual member of the judiciary committee [illegible] submitted to the house his reasons for [illegible] from the resolution and report of [illegible] in regard to the inviolability of [illegible] title. He thinks it remarkable that in the face of the 6th section of the [illegible] establishing the electoral commission the [illegible] should have come to the conclusion that the proceedings of the committee [illegible] subsequent thereto constitute [illegible] unrevisable finality when the law [illegible] declares the contrary, and the contrary [illegible] emphatically assured by the house of [illegible]. Instead of constituting final [illegible] proceedings were on their face and [illegible] terms a merely temporary expedient [illegible] device to avoid a contingency of a [illegible] election for which the constitution [illegible] no provision. Congress, he says [illegible] words of law declared that its [illegible] effect, were provisional only. The [illegible] entered upon his office with the ex[illegible] that his tenure was questionable [illegible] of doubtful validity and not [illegible] by the interposition of the extraordinary commission, but to be examined and adjudicated upon by the courts [illegible] committee that congress [illegible] under the constitution to confer [illegible] supreme court of the United States [illegible] jurisdiction sought for in the [illegible] bill, but he says the question [illegible] whether the president has a just [illegible] title to the office. He holds that a [illegible] that question, if it was possible [illegible] before court would make a [illegible] may well enough be defined to be [illegible] between contending parties [illegible] of law.

Denied the Service of his Country.

From the Philadelphia Times

People who drop the little things of this life and start in with the grand purpose of getting on otherwise always have a great deal of trouble, but it may reasonably be doubted whether many of them have any such experience as befell the patriotic Anderson. In his anxiety to serve his [illegible] country in some office the accounts generally agree that he first encountered Secretary Sherman, but that eminent man to [illegible] circumstance so insignificant just as soon as Hayes had been safely counted in. Anderson was then introduced at the White House by one of the [illegible] Louisiana delegation who were chiefly in this kind of business, and Hayes handed him over to Sherman, who in turn handed him over to Evarts, and this extraordinary man not fully comprehending the delicacy of the situation handed Anderson over to nothing. The red head of the late supervisor must have appeared like a comet as it circumambulated from department to department in search of the fulfillment of promises. And finally he began to tire of this everlasting reaching out after the unattainable. It was at this critical moment that he found Stanley Matthews, who wrote him an incredible number of letters and then turned him over to General Harlan who in turn undertook to get him back to Sherman. Nevertheless he didn't swear himself into anything and matters have got into such a fearfully demoralized condition now that just as likely as not Anderson will have to postpone entering the service of his country for a few months.

A LESSON FOR ALL.—Look most to your spending. No matter what comes in, if more goes out you will always be poor. The art is not in making money, but in keeping it. Little expenses, like mice in a large barn when they are many, make great waste. Hair by hair the head gets bald, straw by straw the thatch goes off the cottage, drop by drop the rain comes into the chamber. A barrel is soon empty if the tap leaks but a drop a minute. When you mean to save begin with your mouth; many things pass down the red lane. The ale jug is a great waste. In all other things keep within compass. Never stretch your legs farther than the blanket will stretch, or you will soon be cold. In clothes choose suitable and lasting stuff, and not tawdry fineries. To be warm is the main thing, never mind the looks. A fool may make money, but it needs a wise man to spend it. Remember it is easier to build two chimneys than to keep one going. If you give all to back and board there is nothing left for the saving bank. Fare hard and work hard while you are young and you will have a chance to rest when you are old.

Settlers on Klamath Reservation

Washington Telegram June [illegible]

On motion of Wigginton, the house committee on public lands to-day unanimously adopted a resolution requesting the secretary of war to suspend the execution of General McDowell's order for the expulsion of numerous settlers from the old Klamath Indian reservation until the committee shall have an opportunity to act on the subject next session. The war department in compliance with a similar request [illegible] last winter agreed to suspend the order until the close of the present [illegible] the committee has been unable to [illegible] the matter because the [illegible] were sent by the committee to the [illegible] department for [illegible] and although repeated [illegible] [illegible]

Test of the Capacity of Cows.

A commission has been appointed by the government [illegible] to examine [illegible] upon the merits of a system [illegible] to determine in advance the probable yield of milk of cows by certain marks upon the animals. The marks are chiefly in respect to the disposition and mode of growth of the hair near the udder, and a prediction can be made with certainty, it is said as to whether the future cow will be a large producer of milk if the observation is made on the young calf even shortly after birth. The discoverer of this peculiarity was a French stock raiser, M Francis Guenon. He first promulgated it about forty years ago. Since then the theory has found favor with several French agricultural societies. M Guenon has received medals and pecuniary rewards and many stock raisers in Europe are said to base their estimates of the value of cattle upon this system. The mark on the animal is called an escutcheon. The mode by which the value of the system will be tried in Pennsylvania is first to have the state commissioners inspect the marks on a series of cows in several stables and make a record of them [illegible] to the owners of the animals. These records are to be sent to the secretary of the state board of agriculture. The owners of the cows will make statistical records of the yield of milk of each animal and send them also to the state board. The two sets of records will then be compared and reported upon. Some of this work has already been done and it is said that the [illegible] by escutcheon observation have so far proved correct.

Blue Mountain and Columbia River Railroad

From the Independent [illegible]

The contractors for the grading of 5 miles of the B M & C R R take charge of the work this week and the work will be pushed to completion as rapidly as possible. They have till the 1st of November to complete it but expect to finish it [illegible] by the 1st of October. Fifty men in this valley who are unemployed would take hold of the enterprise as they should, they would be astonished how soon the road would be completed.

With the exception of about $600 six men have been to all the expense so far in the surveying and grading of the road while at least two hundred men in this county are as able to assist in this work as those six but so far refuse to spend a cent. The company's expense was somewhat increased in making a survey into Pendleton with the express agreement on the part of the town that they would pay the expenses amounting to some [illegible] $400 but which they have since refused to do. These facts we learn from Messrs French and Chaplin.

Fat Stock Show.

Chicago is to have a fat stock show. The show is to be opened in December next from the 2d to the [illegible]. Premiums have been offered by an association of stock breeders and others who have the show in hand. The [illegible] are [illegible] according to breed and the sum of [illegible] is offered for the best short horn 4 year old steer. The same sum for the best 4 year old Hereford steer, and the same sum for the best 4 year old Devon steer. Then $[illegible] is offered for the best 4 year old grade steer. Then a sweepstake of $[illegible] is offered for the best 4 year old steer of any breed or cross and the same sum for the best 3 year-old steer and 2 year old steer and $100 for the best cow three years old and under four. Lot seven is best steer or cow in the show, and $200 is offered as a premium. Liberal premiums are also offered for fat sheep of different breeds and ages and also for swine of different ages and breeds and then a sweepstake in each class.

Collecting Political Capital.

Washington Special to Cincinnati Enquirer.]

The Republican congressional campaign committee are pushing the work of collecting money for the fall campaign. To-day they went through the postoffice department and will raise in that department here between $2,000 and $[illegible]. Brady and Hazen second and third assistants gave about $40 each and it is understood that Tyner will do likewise upon his return. WATER IN THE COLORADO DESERT

From the Alta [illegible]

After all the great problem of irrigation [illegible] without the expenditures of vast sums of money as has been proposed. The Arizona *Sentinel* in reviewing the subject [illegible] the vast sand [illegible] lying west of the Colorado river [illegible] Mex[illegible] [illegible] it is [illegible] the sediment deposited by the [illegible] [illegible] [illegible] feet higher than [illegible] at Yuma [illegible] Gulf of California [illegible] salt water [illegible] The Colorado now flows to the south of it [illegible] to cut away the dam to the north and to [illegible] over the desert into a lake. This does not seem as improbable as that the river should abandon its old bed, north of Fort Yuma and [illegible] its way through to [illegible] hill [illegible] that the latter has actually occurred.

RIVER TRANSPORTATION

NEW [illegible] OPPOSITION ON THE COLUMBIA [illegible]

The Walla Walla *Statesman* of Saturday last publishes the following:

The delegates from various portions of this and adjoining counties [illegible] of Oregon and Idaho met in this city on Saturday last for the purpose of devising some means by which the evils of the present monopoly on the Columbia river can be [illegible]. A proposition from D. P. Thompson of Portland was submitted offering, in consideration of the sum of $[illegible] to build the portage roads, [illegible] and place a line of [illegible] steamboats on the river. Should Mr Thompson's proposal [illegible] to build the roads within twelve months and on the payment down of a portion of the above mentioned sum he will obligate himself to finish the portage at the Cascades within four months. The proposition was favorably considered, a large sum being immediately subscribed and a committee appointed to confer with Mr Thompson. It looks as if our people were in earnest this only [illegible] the necessary funds but we have no doubt the money [illegible] raised.

AFTER HAYES, WHAT?

The Chicago *Tribune* of a recent date has some suggestions on the subject of the next presidency which are exceedingly pertinent. Prefacing its article by a review of the fear of the rise and spread of communism it goes on to say:

If these dreaded days shall ever come, if these dreadful lessons must needs be learned, which God forbid, the man whom the American people will need in the presidential office will not be some wise statesman capable of conducting our affairs with foreign nations with grace and dignity, nor the still wiser statesman able to counsel sagaciously on the workings of the industries of the country. They will demand a man of sterner stuff, a man of force and will who can put down incendiary mobs and keep them down, who can compel and maintain peace and tranquillity, who can make labor and its product property not only possible but secure. This man will be he of Vicksburg and Appomattox. He has a stronger grip, a greater reserved force, than any living American. No name is more respected by the southerner, rebels whom his [illegible] resolute persistence pounded into submission, than his. None will carry such dread into the ranks of communism. Those personal traits that went far to make his last administration odious, his unreasoning bull dog stubbornness, his insensible rock-like determination, even the coarseness of his moral and mental fibre, will commend him to the people as the next administration. He will be elected, because he will be voted for alike by those who have been Republicans and Democrats and by a larger majority than any president since Washington. I daily hear sentiments similar to those I write you uttered by men of both parties.

Gen. Dick Taylor Responds.

Gen Grant's manly declaration that he alone was responsible for the Wilderness campaign, and not Lincoln, naturally brings to the front Gen Richard Taylor. He had asserted, in the *North American Review* that Lincoln compelled Grant to take that direct route to Richmond. He now says in a letter to the *Herald* that Gen Halleck made that statement to him in New Orleans in 1871 or 1875 and furthermore that an officer on duty in the war department at the time of the famous conference of Lincoln Grant and Stanton told Gen Joseph E. Johnston the same story.

Slaughter of Cattle by the Savages—People at Harney in Great Danger—Gen Howard and Party Liable to Capture—Chief Egan of the Malheurs, Disarmed—The Indians Moving toward the Columbia, Expecting to Secure Reinforcements and Sweep the Country

[illegible] June 18.—[illegible] the country [illegible] difficult to dislodge and impossible to capture them, the mountain sides being deeply indented full of ravines easily defended and communicating in [illegible] The Indians can sweep the whole country [illegible] them. General Crook still remains at Fort Hall and will not move westward to take an active part in the hostilities. This Summer's Eclipse of the Sun

A pamphlet has just been issued from the Naval Observatory at Washington [illegible] the line of totality which extends over the western end of Montana across the Yellowstone [illegible] Wyoming [illegible] over Denver Colorado down through [illegible] and [illegible] the Gulf of Mexico between New Orleans and Galveston. It will [illegible] the most [illegible] southern portion of South [illegible] afterwards. The breadth of the totality [illegible] will be about one hundred and sixteen miles. The partial eclipse will extend all over the United States, Mexico and British America. Instructions are given by which unskilled observers possessed of a spy glass and a watch may make observations on this eclipse doing the kind of [illegible] likely to be of use if sent to Washington. It is mentioned incidentally that the present astronomical tables are so uncertain that there is a difference of four miles in the path of the shadow as given respectively by the British and American Nautical Almanacs. The pamphlet includes a diagram of the place of important stars which may be seen near the sun during the moments of eclipse and suggests that a sharp lookout should be then kept for intra-Mercurial planets. People who have facility for rapid sketching are advised how to make drawings of the corona. All the suggestions of the pamphlet are simple and may be carried out with little trouble by those who are favorably situated as to locality.

No Chance for Enterprising Talents.

From the New York Tribune

It is a period of distrust. Judging from the treatment which Mr James E. Anderson has received from the Republican members of the Potter committee a young man who made oath to [illegible] state returns in November [illegible] cannot come forward in June and swear that those statements were false and that he committed perjury at the solicitation of high officers of the government, without having his truthfulness questioned, his motives aspersed and his character and public career subjected to unpleasant scrutiny. This too after he has waited eighteen months for his pay for the work and been disappointed at last. What encouragement, it may be asked, does this sort of thing offer to a young and ambitious man who expects to rise by politics and is willing to swear to anything for a consulship in a warm climate? What margin does it leave to a supervisor of registration, we may well inquire, if after he has made oath to his returns upon the strength of the promise of office he cannot, when the office is refused him, amend his returns and swear that the former affidavit was a lie, and turn an honest penny with the other side?

Republicans Giving Aid and Comfort to the Democrats.

[Redfield's Washington Letter to Cincinnati Commercial.]

In the main the tendency of affairs is to unite the Republican party but there are Republicans high in official life here who would be glad to see Hayes put out by the Democrats, either by impeachment or any other way. I heard one of them say last night that he would aid the Democrats all in his power to get Hayes out and he didn't care a d[illegible]n who they got in for they couldn't get anybody who would injure the Republican party more than has Hayes. Upon pressing this patriot for particulars the truth leaked out that President Hayes hadn't stood up to those who put him in office nor parceled out the spoils in the good old way. Will the offices be distributed more to the notion of these disgruntled Republicans if Hayes is put out and Tilden put in?

Democratic Reflections on the Result.

From the Bedrock (Baker) Democrat.]

The result of this election will teach ringsters and bargain and sale politicians and corrupt cliques that they can no longer control elections, even if they do succeed in making the nominations either in a state or county convention. Western Oregon is Republican and Eastern Oregon is Democratic and without our votes there would not have been a single man on the Democratic state ticket elected. Our people are good for [illegible] to do the voting but are not fit for candidates.

One of the marvels of this age of immigration and enterprise is the rapid settlement of the Yellowstone valley. At the point on Tongue river where Gen Miles was encamped in 1876 there is now a town with a population of nearly 1,000. [illegible] occupied by farmers and the [illegible] [illegible] possession of the [illegible] [illegible] against which such a tremendous [illegible] counts as nothing.

A Democratic newspaper [illegible] that Hayes sits in the White House is [illegible] [illegible]

WEDNESDAY MORNING, JUNE 19, 1878

BONNEVILLE.

Gen Benjamin L E Bonneville, the captain Bonneville of Irving's celebrated story, and the oldest officer of the United States army, died [illegible] Smith, Ark, [illegible] of the present month. He was [illegible] in 1795, graduated at West Point [illegible], fought through the Mexican war, was made colonel of the third infantry in 1855, retired from active service in 1861 and was made brevet brigadier general in 1865. His principal celebrity was acquired through the [illegible] given him by Washington Irving, who digested [illegible] of [illegible] adventures in the Rocky mountains and the then far west, and it is this expedition and the history of which mainly interests [illegible] here in the personality of Capt Bonneville.

Irving's introduction to the adventures gives an account of Bonneville which of course everybody has read. How he conceived the idea of the journey to the distant west, obtained leave of absence of the war department, was aided by an association in New York with funds to carry his proposed measure into effect, was long absent and supposed to be dead, and finally returned after the lapse of three years to find himself given up for lost and his name stricken from the army list, is written down in Irving's introduction and is familiar to all who have taken an interest in reading the history of early expeditions to Oregon and California.

On the first of May 1832, Bonneville took his departure from Fort Osage on the Missouri river. He had a party of about one hundred and ten men, most of whom had been in the Indian country, and some of whom were experienced hunters and trappers. Descriptions of the country traversed by the party and the history of their adventures are inimitable. Our school readers teemed with extracts more than thirty years ago. After passing the Rocky mountains the party went northward, striking the tributaries of the Columbia river. Winter quarters were prepared on the Salmon river. The Nez Perces were very friendly; finding their visitors in want they offered to share with them their own meagre store, and their generosity won the heart of Bonneville and produced the most cordial good will on the part of his men.

After a winter spent in that region Bonneville turned off toward Green river and made some explorations of the Salt Lake country. He then passed on through to California, visited San Francisco bay and in prophetic words spoke of it as a seat of future commercial empire. Returning, another trip was made to the waters of the Columbia. It was the intention to descend to the Willamette. Scouts were sent out, we are told, to look for a convenient pass, but after twenty days they returned weary and discouraged. The party turned back from Grand Ronde and after their three years travel in the wilderness reached the frontier settlements on the Missouri in August, 1835. It was Bonneville's good fortune on his return to meet Irving, to whom he was introduced by John Jacob Astor, and this author, then in the height of his literary fame, took the adventurous captain's materials and made that charming book which is still read as widely as any book of American adventure ever written.

IMPROBABLE CHARGES.

Delegate Fenn of Idaho has been talking at Washington on the Indian outbreak. We regret to say that his remarks are full of assertions which he probably would find much difficulty to substantiate. In professing to give an account of the origin of the trouble he attributes it to the dishonest conduct of the agents representing religious denominations, at Fort Hall and Lemhi. One of these agents, Rev Stowers, Mr Fenn says has actually been stealing goods designed for the Indians. This agent was sent out from Wisconsin, and it is asserted that he has shipped Indian goods from the agency to his home in that state, and otherwise diverted to his own use appropriations made for the Indians on his reservation. Mr Fenn is in a position which does not justify his talking at random, and yet we gravely question whether these statements have any better foundation than mere idle rumor exaggerated by repetition and magnified by malice, till they have reached the ears of the Idaho delegate and are through him given far wider publicity. How a scandalous rumor grows by its travels every one knows is proverbial. The statements, unless most direct proof be furnished, must be considered simply incredible. It is the fashion to make accusations like these, and yet those who know anything of the manner in which the public business is transacted are well aware how nearly next to impossible it is to do such things as are laid at the door of the Fort Hall agent. Management of the agencies is kept under strictest control at Washington; the most rigid accounting is exacted, and supervisors are continually on the alert to enforce proper disposition of the appropriations. Resources usually are limited, and agents now are allowed little or no discretion in disposing of them. We certainly do not believe that the agent at Fort Hall has stolen the goods intended for the Indians and sent them back to his home in Wisconsin. If Mr Fenn made this statement he has been misled pretty certainly. We are under an impression that the Fort Hall reservation was some time ago transferred from one religious denomination to another and that there has been some dissatisfaction about it. Out of such circumstance these rumors might have their rise, though no one would undertake to be responsible for them.

Some days ago we had notice by telegraph of the death of Porter Rockwell at Salt Lake city. The Salt Lake *Tribune*, in its notice of his death characterizes him as another of the long list of Mormon criminals whose deeds of treachery and blood have reddened the soil of Utah. He died barely in time to escape the hand of the law, being under indictment for one of the many murders in which he is known to have participated. Coming to Salt Lake in the early migration he has been one of the most fanatical of the [illegible] of Mormonism and has killed without [illegible] under a belief or pretended [illegible] [illegible] it was the most acceptable [illegible] for the Almighty. [illegible] was recognized [illegible] the Danites [illegible] [illegible] executed the [illegible] of the Mormon [illegible] [illegible] his death comes opportunely for [illegible] whose orders [illegible] with fatal testimony [illegible] [illegible] that he would have [illegible] and instigators [illegible] these [illegible] it is estimated that he

was taken off suddenly by poison to get him out of the way.

A dispatch from Washington the other day announced that the treasury department is [illegible] six million new silver dollars which it did not know how to get into circulation. At first the new silver dollars were exchanged [illegible] But as [illegible] [illegible] at a rate of about six million [illegible] up to the 1st June [illegible] into circulation [illegible] the treasury. As fast as government pays it out it comes back to it in payment of duties, being worth less than gold.

George C Gorham, secretary of the United States senate and secretary of the Republican congressional committee, has sent to government employes everywhere a circular asking for contributions for political purposes and a prompt and favorable response to his request, with the assurance that there will be no objection in any official quarter to such voluntary contribution. This is a delicate way of enforcing civil service reform. The voluntary however is not likely to fill the congressional committee's strong box with an excess of funds.

Prof David Swing of Chicago sharply criticises that famous terminologist or word monger Rev Joseph Cook, whose lectures have achieved a superficial reputation. He says that much of Mr Cook's scientific method is only a method of language, a certain gravity of dress, as though a small boy were wearing the wig and gown of an English justice. The discourses which the Boston orator sends forth on the subject of marriage are the most wonderful specimens perhaps in all literature of masquerade of small ideas in the suits of giants.

The bark [illegible], which sailed from [illegible] last Thursday with coal, came back in a leaky condition. This is a very old vessel. Before the days of steamers she was a passenger packet sailing out of New York, and it was she that brought Lafayette from Havre to the United States on the occasion of his memorable visit in 1824. A few years later the records say she brought from England the first locomotive engine to the United States. She is now owned by Capt Gunn of San Francisco.

A few days ago Senator Gordon of Georgia recommended to the president the appointment of Capt W H Nickerson of Gen Crook's staff, an officer well known in this department, to the vacancy in the adjutant general's office occasioned by the death of Gen [illegible]. Gen Gordon at Antietam was in front of a position occupied by a skirmish line commanded by Capt Nickerson, and the two officers were terribly wounded.

The senate has been at the point of doing the most rational thing in the matter of change in the organization of the army, that is the reference of the entire question to a mixed commission of members of congress and army officers to thoroughly investigate it during the summer and report at the next session. But we have not heard whether this proceeding has been actually taken.

When the New York *World* speaks of salmon from the Columbia river in California it is tolerably apparent that even the writers on that very intelligent newspaper need a copy of some standard school geography at their elbow.

The San Francisco *Call* of the 11th says: Within the past few days two vessels have loaded at Pacific Rolling Mills with railroad iron for Olympia. This iron is for the Olympia and Tenino railroad.

Some politicians quaintly remark the New York *Herald* are never satisfied till they sit down in an artesian well.

CITY.

ANOTHER OREGON BOY.—Mr. Isaac Fleischner, the son of one of our esteemed Portland citizens, has recently graduated with high honors at St. Augustine's College, Benicia, California. During the three years that he was connected with the institution he held the medal which is given at the end of each year for excellence in studies and deportment, and now has the honor of wearing it as graduate of the college. He was appointed to fill the difficult position of class poet on class day, and on that occasion delivered a poem worthy of the finest class that has ever graduated at St. Augustine's, thus showing a high order of poetical genius. Mr. Fleischner was also selected to deliver the salutatory oration on commencement day and won many warm encomiums from the large audience which he gracefully welcomed to the festivities of his *alma mater*. In the military department of the college Mr. Fleischner proved himself an able and efficient officer, and enjoys the distinction of having graduated with a higher rank than any of his predecessors of the same age.

BIBLE READINGS.—Rev. Mr. Brown's labors at the noonday and evening meetings in the rooms of the Y. M. C. A., and at the Presbyterian church yesterday, were highly appreciated by our people, judging by the large audiences that collected to enjoy them. More than a hundred persons, members of the various churches, arose last evening, and by so doing announced their desire for greater efficiency in vineyard service and more zeal for the glory of God and the salvation of souls. At (this noon) Bible reading at the rooms of the Y. M. C. A.—subject—"Our two Advocates." This evening at 7:30 Rev. Mr. Brown will preach at the Presbyterian church. This will be his last service before leaving the city. He visits Salem for a few days, and it is expected he will return to this city for further Christian labors. Numerous persons sincerely desire that he may.

SCHOOL MATTERS.—We understand that Mr. Willis Duniway has declined to act as historian at the forthcoming alumni reunion of the High school. Mr. Duniway would no doubt have presented an interesting paper if it had been possible to prepare it in time. The examinations continue at the free schools this week. It is hoped that especially parents will attend numerously before the schools close. The examinations thus far are very creditable. The commencement exercises will probably be held in a week or two at the New Market Theater. About ten pupils will graduate. Mr. Horatio Paxton was the unanimous choice for valedictorian; and as ten persons will take part in the programme, it is expected a very pleasant time will ensue. The attendance at our schools has been on the increase and new accommodations are needed.

A LONG SIEGE OF FIRE.—Citizens of Portland will remember the splendid iron ship *Ada Iredale*, which carried a cargo of wheat from this port to England, leaving here in October, 1875. The last heard of her is as follows, from a San Francisco paper of last Friday: "The schooner *Greyhound* has brought here from Tahiti the bowsprit and a portion of a lower mast and thirty-five deck beams belonging to the ship *Ada Iredale*, which vessel was picked up at sea after being afire for eight months and towed into Tahiti, where she now lies. It is the owners' intention to fit the vessel up and make her seaworthy, as the hull is found to be in good order, with the exception of a space amidships which is twisted a little out of shape by the heat of the fire which caused the abandonment of the vessel."

THE GREAT REPUBLIC.—This steamship, now on her first voyage in Oregon waters, is the largest vessel that ever entered the Columbia river, being 380 ft in length, 47 ft breadth of beam and 30 feet depth of hold. She registers 3,881 tons. The repairs recently put on her we understand have been quite extensive, and she is said to be fitted up in splendid style, and is every way seaworthy. She was built in New York in 1867, having been built by Henry Steers for the Pacific Mail Steamship Company, and at the time of her construction was regarded as a very fine vessel. She now belongs to P. B. Cornwall, and runs in a line independent of the other steamers now on the same route.

A PAINFUL ACCIDENT.—From the *Telegram* it is learned that a farmer named Wilkins, residing several miles below Giles' lake, met with a very painful accident yesterday morning while on his way to this city. He was bringing a harrow to the city in his wagon, and when a short distance below town the horses took fright and turned from the road, throwing Mr. Wilkins out of the wagon and the harrow on top of him. Two of the sharp spikes entered the fleshy part of his leg, making a very painful but not at all dangerous wound. He drove on to the city after binding up the wounds as best he could, where he received assistance and was made comfortable enough to drive back home.

IN THE WAKE.—Under date of "On board steamer *Baltic*, Sunday, May 26th, 148 miles from Queenstown," Mr. S. G. Skidmore writes: "We will reach Queenstown to-night about 10 o'clock, and expect to be in London to-morrow night. We have had, I might say, a pleasant time. It has been very rough on deck. This ship is a splendid sea boat, being very large—441 feet long. I have not been sick, taking four meals a day. Mr. Wolfinger is all right. He has not been sick, but keeps his room most of the time. We are now in sight of land."

JUVENILE THIEVES.—Two or three young hoodlums invaded the yard adjacent to the house of Mr. Yates the other evening, in search of luscious cherries. This gentleman happened to arrive home early and he detected the scamps, and after administering a kindly reproof to them, he enforced his arguments on one of the saucy crowd by the application of a little "birch ile," with very good results.

MATERIALS FOR DECORATION.—Mr. W. H. [illegible] came down from Salem yesterday afternoon for the purpose of obtaining suitable materials with which to decorate the liberty car to be used on the Fourth. The several committees are making elaborate preparations and there appears to be every reason to expect a grand celebration at the capital.

ST. HELEN'S HALL.—The closing exercises of this school will take place on Thursday afternoon at 3½ o'clock, with the reading of the compositions of the graduating class, the conferring of the diplomas and the address of Bishop Morris. The art studio will be open to visitors at 2½ o'clock.

SUSPENDED.—Officer Elwanger has been temporarily suspended on a charge of insubordination to Chief Besser, and the matter will be investigated by the board of police commissioners. Patrick Coakley has been appointed to fill the vacancy thus created.

DIVINE SERVICE.—This (Wednesday) evening Rev. Mr. Brown will hold divine service at the First Presbyterian church in this city. In consequence of this there will be no meeting to-night in the Y. M. C. A. rooms.

ON TRIAL.—Yesterday the case of State of Oregon vs. M. Wilson, indicted for rape, was on trial in the state circuit court. An impression seems to prevail that the defendant will be acquitted of the charge.

LARCENY.—Last evening a man giving his name as Joseph Green was arrested on complaint of Frank Hobin, charged with the larceny of $55. The matter will be investigated in police court to-day.

POLICE COURT NOTES.

John Krantz, disorderly by fighting, fined $5.

J. McKinnon, disorderly by fighting, fined $5.

? Sullivan, disorderly by shooting in the streets, fined $5.

INSTALLATION.

There will be a public installation of the grand officers-elect of the Grand Lodge of Oregon, I. O. G. T., at the hall, corner Third and Alder streets, this Wednesday evening, June 19th, commencing at 8 o'clock P. M. There has been an excellent order of exercises prepared for the occasion, consisting of vocal and instrumental music and five minute speeches from prominent Good Templars. After the close of the exercises, strawberries and ice cream will be served up by the members of Multnomah Lodge No. 13. The public is cordially invited to attend.

CASCADES ITEMS.

A correspondent at the above place writing under date of the 15th inst., sends the following:

The Columbia lacks almost 12 feet of being as big as it was in "the days of '76."

Mrs. Gen. J. W. Sprague of Portland, has been visiting friends here for a few days.

The *S. T. Church* has made several trips to this place lately, conveying sheep and cattle destined for the upper country.

It is said that Wm. R. Reed, Esq., has closed a bargain for his productive farm just opposite Castle Rock. We learn the price paid Mr. Reed was $5,000.

Taking "your girl" hand car riding has become a favorite pastime, since Mr. F. M. Thompson "got up" a portable seat on which all hands may sit on the down grade.

The C. R. R. Co. are placing their passenger coaches in first class order, and when finished they may well compare in elegance to the handsome steamer *Wide West*.

The picnic party which visited our town on the 9th inst. had the misfortune to leave several of its members behind, among them was Mr. P. Coakly, special policeman on the boat.

Capt. J. C. Ainsworth and other directors of the O. S. N. Co., passed through here last week; they will go to Walla Walla and view the line of the proposed branch of the W. W. & C. R. R.

We paid a visit to Warrendale last week, and were informed by the gentlemanly manager of the cannery, Mr. Frank Warren, that it is doing a better business now than at any time last year.

Large numbers of excursionists, taking advantage of the excellent inducements which the O. S. N. Co. offer, pass through here every Saturday; some going to The Dalles, and some remaining here over Sunday to view the celebrated cascades on the Columbia river, and return Monday.

AMUSEMENTS.

"OUR BOYS."—To-morrow evening the Uncle Tom Cabin Combination will appear at New Market Theater for one night only. On this occasion the beautiful play "Our Boys" will be produced. The following is the cast: "Perkyn Middlewick," the retired butterman, A. D. Billings; "Charles Middlewick," his son, J. M. Barrows; "Sir Geoffrey Champneys," a baronet, Charles Allen; "Talbot Champneys," his son, Frank Kilday; "Violet Melrose," rich heiress, Nellie Holbrook; "Mary Melrose," poor cousin, Carrie True. The other characters assumed by the company. The robe of Miss Holbrook was made by Worth, of Paris, for this play especially, and is perfectly superb. Little Zoe Tuttle will appear between acts in her specialties.

MILITARY NOTES.

The commanding officer, Fort Walla Walla, W. T., will send Private Franklin S. Arlin, company H, 1st cavalry, now at that post, to the station of his company: Fort Lapwai, I. T.

Coming to Oregon.

The afflicted will be glad to learn that a corps of Surgeons from the National Surgical Institute, fitted out with a complete assortment of apparatus for the treatment of every human deformity, will again visit Portland, Oregon, at the St. Charles Hotel from June 25th to July 1st, inclusive, 1878. This Institution originally founded at Indianapolis, Indiana, has extended its business throughout the United States and has attained a reputation for the successful treatment of Spinal Curvature, Hip and Knee Joint Diseases, Club Feet, Paralysis, Piles and Fistula, heretofore unknown to the profession. References of the highest order can be given.

PFUNDER'S DELICIOUS REFRESHING CLAR SODA & CELEBRATED VICHY WATER.

To the Suffering People of Oregon & W. T.

The cures which have been effected by Doctor Souville Mathieu the eminent French Physician with his celebrated Paris Spirometer, have proved a wonderful blessing to mankind and a credit to the Dr. as its inventor, in every case of nasal Catarrh, Lung and Bronchial affections and all diseases arising from impurities of the blood. It will effect a complete and speedy cure by conveying medicated inhalations direct to the seat of the disease, which is the only way by which these diseases can be cured. Parents especially should never be without one of these invaluable instruments, for on administering them twice a day your children will never have diphtheria or any disease arising from poison in the blood, but will grow up healthy and strong. The Paris Spirometer will be sold at the remarkable low price of $25, which will include all medicines and complete directions, and will be sent to any address on receipt of the money by letter or express to DR. SOUVILLE MATHIEU, St. Charles Hotel, Portland, Oregon.

Office hours, 10 to 12 M., and 2 to 4 P. M. Consultation free. The doctor's medical certificate approved by the state medical board of California, San Francisco, Dec. 11th, 1876, and recorded in the office of the county clerk of San Francisco, Jan. 15th, 1877, by Thomas H. Reynolds, county clerk, can be seen by any one at the doctor's office.

Liver is King.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequaled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want.

THE HOSTILES.

The following news was received at military headquarters here yesterday from Capt. Bernard's camp on Owyhee river, under date of June 14th:

Winnemucca, Piute chief, has just returned to Captain Bernard's camp with a small party of his men, the interpreter, Jerry, being among them. From Winnemucca and Jerry it is learned that the hostiles have left Steen mountain and are moving into Harney Lake valley, toward the Malheur agency, intending to pass on northward and in [illegible] toward Snake river, continuing until they make a junction with the Columbia river Indians. First going to the northern Columbia Indians, they expect to form a junction with the latter and make a clean sweep of everything returning this way. This band of hostiles are composed of Bannacks, Eagle Eye's band of Weisers and Oit's band of Piutes, the worst band of all. They have Egan and his band of Piutes prisoners and say they will keep them until they can, by killing white men, get arms to arm them with. Egan has told Winnemucca's party that he will escape on first opportunity. An Indian who escaped later and came in says the hostiles have taken horses and everything from Egan and party and are holding them close prisoners. He says they declare they are going direct to Camp Harney and take the place. Whipple, with his two companies, has just joined Capt. Bernard, who will move after the hostiles as fast as possible. Jerry also says the hostiles have killed hundreds of cattle and horses in the vicinity of Steen mountain, leaving them where killed. Capt. Bernard has sent a courier after Gen. Howard with this report.

TURNER STATION ITEMS.

Under date of the 15th, a correspondent writing from the above point sends the following:

A. H. Turner is completing a magnificent building, containing a Masonic temple and store, being 36 by 80 feet on the ground and 40 feet high, costing from four to six thousand dollars.

McElhinny & Co. are doing a fine mercantile business, conducted on the popular principle of "quick sales and little profits," and command universal respect as fair and honorable dealers.

R. W. Cheney, alias [illegible], claiming to be a disabled soldier, an experienced teacher and an accomplished chirographer, disappeared on Monday, forgetting to pay a two weeks' board bill at the hotel. Started north to draw on Ladd & Bush, but was seen tacking south.

Turner's Mill Co. have in course of construction a capacious and what promises to be a first class merchant and custom flouring mill, using, if necessary, the whole supply of Salem water, with a fall of 13 feet, said mill being 40x60 on the ground and four stories high, with three run of burrs.

The Co-operative Society of the Christian Church of Marion county have just closed an interesting meeting of ten days' duration, conducted by Elders S. C. Adams, Moss and Warren. These brethren preached on Sabbath with great power and much to the edification of a large and attentive audience. Excursion trains ran on Sunday from Albany and Salem, bringing from the latter place half a thousand people for 50 cents each for the round trip of nine miles. Mrs. Turner very generously has donated five or six acres of land, contiguous to the town, for the use and benefit of a permanent camp ground.

The demand of the day is for cheap things, but cheap only in price, not in quality. This demand, however exacting, is fully met in the departments of fashion and society by "Andrews' Bazar." To be well informed in these regards is not only pleasing but requisite for a lady. Through no medium can a lady become at once so agreeably, so accurately and so cheaply informed as through the "Bazar." Sample copies sent by W. R. Andrews, Cincinnati, on receipt of ten cents.

Abell, the photographer, continues to flourish, and no wonder for he does most excellent work at the very lowest prices. Be sure to call on him.

Arctic soda, also Broadway and French candies at S. L. Stone's.

It restores gray hair to its original color; it makes the scalp white and clean; it cures dandruff and humors and falling out of the hair; it furnishes the nutritive principle by which the hair is nourished and supported; it makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assayer of Massachusetts. For sale by all dealers.

THE "MAN-EATER" SHOT.

A STALLION THAT HAS KILLED THREE MEN AND DISFIGURED TWENTY OTHERS.

Letter from Middleton, New York

The Hambletonian stallion Risingham one of the finest breed horses in Orange county has been killed by his owner, Dr. J. A. Schultz of this place. This horse was 21 years old. An offer of $7,000 was once refused for him. At two years of age he was considered the coming successor of Old Hambletonian, his sire. Nineteen years ago, however, he began to exhibit signs of viciousness that increased as he grew older. Finally he became almost entirely unmanageable and since then he has been known as the "man-eater." He had killed three men, and wounded, crippled and disfigured twenty others. For fourteen years no one dared to put him to a wagon until a short time ago Dr. Schultz, who had owned him but a short time, with the aid of several men, got him in harness and to a wagon and tried to drive him. It was a dear experiment. The stallion broke everything to pieces, and the doctor was himself saved by the merest chance. Many of the leading horse trainers of the country had tried their skill at subduing him. He conquered them all, and nearly killed one of them. One of his latest exploits was the seizing of a negro groom who had undertaken to keep him, tearing off the man's right cheek and destroying the eye, and stripping the flesh from his right arm. The groom became blind and paralyzed. The three men who preceded the negro as grooms all narrowly escaped with their lives. One lost an ear, another had three fingers and a thumb taken off, the third lost his arm from the elbow in the jaws of the horse. It became impossible to get a groom for the stallion. No one knew at what moment the brute would attack. Dr. Schultz at last made up his mind that Risinghim was chronically insane, and concluded to kill him before he claimed another victim.

As Risingham stood in his stall, glaring over the manger at the spectators who had entered the stable to see the man-eater die, five large pistol balls were shot into his head, directly between his eyes. They failed to bring him down, and, uttering the fiercest of neighs, he made frantic efforts to get over the manger among the bystanders. As a man drew the attention of the horse away, Dr. Schultz, by a skilful thrust of a long knife, severed his jugular vein, and the blood spirted out in a large stream. For a long time Risingham stood up under the great flow of blood, relaxing no effort to get at the man. At length he settled to the floor, but to the last maintained his fierce disposition. The last movement he made was to attempt to seize Dr. Schultz with his teeth, the doctor having gone into the stall. Horsemen say that but for the temper of this horse he would have been worth $20,000. His skeleton is to be set up in Dr. Schultz' office.

Watertown, a diminutive Wisconsin village, has saddled itself with $450,000 of railroad bonds and claims to owe more to the head of population than any other city in the west.

New York *Tribune*: Anderson will adhere to his last perjury. His former ones will also adhere to him.

FINANCE AND COMMERCE.

Financial.

TUESDAY EVENING, June 18, 1878.

Gold in New York, 100⅝.

Legal tenders in Portland—buying 99¼, selling par.

Silver coin, 2½@3 per cent. discount.

SAN FRANCISCO, June 18.—Standard silver dollars or silver dollar certificates 99¾@99⅞.

Legal tenders firm at 99⅝ buying, 99¾ selling.

Brokers buying half dollars to-day at 2 35@2 37½ per cent. discount.

Trade dollars, 97¼ buying, 97¾ selling. Mexican dollars, 93¾ buying, 94 selling.

The monetary situation locally is one of quite as much ease as usual at this time in the season, and the outlook for a fair degree of activity in the summer's business is not altogether discouraging. Rates for coin accommodations are rather lower than in any former year, a fact which should tend to make the movement of the coming crops of produce animated from the start. The low prices for leading staples may, however, counteract this effect, which would doubtless otherwise be exhibited after the harvest.

Trade matters wear a tolerably lively aspect. Important fluctuations are noted.

The Wool Trade.

Holders of large lots of wool meet with some discouragement in their effort to place it in this market, and a great deal is forwarded from first hands to San Francisco and the east. Whether more satisfactory terms are procured elsewhere is uncertain.

The latest number of the Boston *Shipping List* at hand, says:

Considerable old wool is still pressing for sale, and can only be disposed of at low and unsatisfactory prices, and for new wool receivers find it difficult to obtain cost. The old wool on hand at the close of a season is, generally speaking, rather undesirable and inferior in condition, after buyers have had the range of the market for nearly a year, but this year the reverse is the case. Most of the Ohio and Pennsylvania fleeces sold the past two months have been equal to any on the market the past year. It is also understood that the "list" wool, some 300,000 pounds choice Ohio and Pennsylvania fleeces, from X to picklock, has been sold in New York at 37½ or 58 cents per pound, to two of our leading manufacturers. This wool was considered one of the most desirable selections of last year's clip, as the owner has the reputation of securing the choicest wools grown. It cannot, therefore, be said that prices are now low because the wool is not up in condition. There has not, in fact, been a year for a long time past when so much choice wool was available at this season, and there is considerable left, both here and in the interior.

The paper above quoted gives a list of forty five mills that have either stopped entirely or are running on short time and, rightly no doubt, thinks this the cause of the large supply of wool in Boston and New York.

DR. PAUL M. BRENAN.

His Wonderful Success
IN THE TREATMENT OF ALL
Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself, Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so called Doctors, through pretended friendship for the patients. Look out for them; they are knaves prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN the *Medical Lecturer*, and read his sign on his door.

VOL. XVIII.--NO. 118

GENERAL NEWS.

(BY TELEGRAPH TO THE OREGONIAN.)

Maine Democratic Convention.

PORTLAND, Me., June 18.—The Democratic convention adopted the following platform: First, demanding payment of the bonded debt as rapidly as possible; second, no more government bonds issued; third, opposing irredeemable currency, but currency for all classes of people; abolition of the present national system and favoring the gradual substitution of greenbacks for national bank bills; fourth, indorsing investigation of Louisiana and Florida frauds, and insisting on punishment of the guilty parties and vindicating justice; fifth, such legislation as will secure to each man a just reward for his own labor; seventh, condemning the Republican party.

Troops for the Black Hills.

DEADWOOD, D. T., June 18.—Five companies of cavalry and four of infantry, under command of Gen. L. P. Bradley, for the Black Hills post, camped to-day near the Bel Fourche, about 30 miles from here. The command's progress northward has been much retarded by frequent and heavy rains and bad roads.

Hanged Himself.

TROY, N. Y., June 19.—Edwin N. Andrew, cashier of the wrecked Greenwich Bank, Washington county, hanged himself to-day.

Arctic Expedition.

NEW YORK, June 19.—The schooner *Eothe* sailed to-day for the Arctic regions, to search for relics of Sir John Franklin. A distinguished party accompanied the schooner as far as Sandy Hook.

Emigrants to Liberia.

Sixty-nine colored emigrants sailed to-day for Liberia, under the auspices of the American colonization society.

Greenback Convention.

SEDALIA, Mo., June 19.—A joint state convention of greenback and national parties assembled in this city this morning. F. J. Underwood is temporary chairman. Committees were appointed and convention took a recess.

Riots in Indiana.

INDIANAPOLIS, June 19.—Judge Davidson of Fountain county telegraphed Gov. Williams to-day for troops to assist in suppressing riots among miners. The light infantry leave here by special train this afternoon.

Iowa Republican State Convention.

DES MOINES, June 18.—The Republican State Convention met this morning. Hon. Jas. Harlan was elected temporary chairman and made a brief speech. He declared that the principles of the Republican party were to be reiterated until they became household words. His declaration that the convention should declare its approval of the acts of union soldiers, and its disapproval of rebels, was greeted with hearty applause. He strongly urged the necessity of careful action and appealed for unity on essential matters and wisdom on all others. After the introduction of several resolutions and appointment of committees the convention adjourned till afternoon.

The convention reassembled at 2 o'clock, Ex-Senator Wright was made permanent president. The committee on platform reported the following platform, which was adopted with enthusiastic applause at the reading of the most radical portions:

The United States are a nation, not a league. Both state and national governments should give ample and complete protection to its citizens, either at home or abroad, against assaults of traitors and rebels. The Republican party has preserved these governments, and the Republicans of Iowa now demand that every qualified elector in every state, south and north, Democratic or Republican, black or white, shall be permitted one vote at all elections and no more, and that every vote so cast shall be honestly counted, and that every person chosen by such votes to any office shall be freely inducted into it and effectively supported in the discharge of its duties. With such freedom of election and honest administration at least five of the southern states are Republican by large majorities, and are now in the hands of the Democratic party solely through force, fraud, intimidation and failure to enforce the principles herein set forth.

The permanent pacification of the southern section of the union and complete protection of all its citizens is a duty to which the Republican party stands sacredly pledged. The Republican party opposes all lawlessness in whatever form.

The wisdom of the financial policy of the party is evident from its results in a practical resumption already accomplished. The organized raid on the treasury to secure the payment of rebel war claims is unparalleled impudence and present danger. Tariff should be wisely adjusted for revenue. The Republican party challenges scrutiny as to the administration of state funds.

The presidential term was definitely and finally settled by the 44th congress, and any attempt to reopen it is dangerous, illegal and unconstitutional.

The efforts of the Democratic party in congress to cripple the army and navy is condemned; rigid economy is demanded in every department of the public service; honesty and efficiency in public affairs and the punishment of dishonesty and fraud wherever found.

The convention made the following nominations: Capt J. A. T. Hall was nominated for secretary of state on the first ballot, B. R. Sherman for state auditor and Geo W. Bemis for state treasurer. J. K. Powers, of Cass county, was nominated register of the land office, J. F. McJunkin for attorney general, J. H. Rothrock for supreme judge, John S. Runnels for supreme court reporter and E. J. Holmes for clerk of the supreme court.

WASHINGTON CITY.

Important Bills Signed.

WASHINGTON, June 18.—The president signed the army and river and harbor appropriation bills.

Confirmed.

The senate to-day unanimously confirmed Major Kemble, formerly editor of the *Alta California*, to be agent for one of the important new Indian agencies recently established on the Missouri river.

The senate confirmed Sumner I. Kimball, of Maine, general superintendent of the life saving service.

The Chinese Question.

The house of representatives to-day unanimously concurred in the resolution which last month was also unanimously adopted by the senate, declaring that existing treaties with China should be modified so as to place some limit upon Chinese immigration, and inviting attention to the subject on the part of the president.

The Sundry Civil Appropriation Bill.

The prospects for adoption by the conference committee of the amendments added by the senate to the sundry civil appropriation bill for Pacific coast purposes are to-night very encouraging for most if not all of them. An amendment was inserted to-day appropriating $50,000 for the construction of a first class lighthouse on Tillamook head, Oregon. Another amendment to increase the item for the construction of a steam tender for Pacific coast service from $40,000 to $80,000 was excluded on the point of order that it was not recommended by the committee. The same ruling was made concerning an amendment offered by Teller, providing $20,000 for the survey of a railroad route from Austin, Texas, to Topolobampo Bay, G. of California.

The President Invited to California.

Senator Booth to-day forwarded to President Hayes an invitation tendered him by M. D. Boruck in behalf of the California State Society to attend the state fair next autumn. The reply has not yet been received.

Superintendent of Life Saving Service.

The president has nominated Sumner J. Kimball of Maine general superintendent of the life saving service.

Defeat of the N. P. R. R. Bill.

The effort to pass the N. P. R. R. bill failed by the remarkably weak vote of only 89 yeas against 127 nays. Davis, Page and Luttrell were recorded in the negative. Williams of Oregon voted in its passage. The result is attributed to the fear to [illegible] the friends of the [illegible] and their refusal of invitations to [illegible] and other [illegible] during this session. These interests, therefore, to-night combined
